NOWRA 19th Annual Technical Education Conference Surface Discharge: Challenges and Solutions

Call For Papers

St. Louis, Missouri - October 25-27, 2010

The National Onsite Wastewater Recycling Association (NOWRA) welcomes abstracts for papers to be presented at the NOWRA 19th Annual Conference in St. Louis, Missouri on October 25-27, 2010. St. Louis will serve as a great location in the heart of the US on the Mississippi River, and we are pleased to have the Missouri Smallflows Organization be the Local Host for this conference. This conference will highlight issues related to surface discharges: what can be done, what are some appropriate technologies, and what are some successes as documented with case studies.

NOWRA's 19th annual conference will be focusing on surface discharging issues, but abstracts covering the broad range of topics relating to onsite/decentralized wastewater treatment are encouraged. **The deadline for submission of abstracts has been extended to May 1, 2010.**

For more information on the Call for Papers or to make a submittal online, see the NOWRA conference website at http://www.nowra.org/annual_conference.html

NOTE: Watch for the NOWRA E-news to be coming out next week with some exciting new NOWRA developments!
